

Aash Singh Jat

Senior Software Engineer

aaashjat96@gmail.com | +91 7000 770 464 | India | LinkedIn: linkedin.com/in/aash-jat-b58948130

PROFESSIONAL SUMMARY

Senior Software Engineer with 7+ years of experience building scalable, high-performance web applications using React.js, Next.js, Vue.js, JavaScript, and TypeScript. Experienced in end-to-end development from UI to API using Node.js, PostgreSQL, and Prisma. Strong focus on performance (Core Web Vitals: LCP, FCP) and accessibility (WCAG). Proven track record in code reviews, mentoring, and improving code quality through testing and best practices

TECHNICAL SKILLS

Frontend & UI: React.js, Next.js, Vue.js (Vue 2/3), Angular (2+), AngularJS, TypeScript, JavaScript, jQuery, HTML5, CSS3, SCSS, Bootstrap, Component Libraries, Design Systems, Responsive Design, WCAG Accessibility

Performance & State: Web Vitals (LCP, FCP, CLS), Lazy Loading, Code Splitting, Bundle Optimization, Performance Monitoring, Redux, Vuex

Backend & Data: Node.js, REST APIs, JSON, Axios, API Integration, PostgreSQL, Prisma ORM

Testing & Quality: Jest, Unit Testing, TDD, Clean Code Architecture, Static Analysis Tools

Cloud, DevOps & Tools: Azure, Azure AI SDK, Google Cloud Platform, Firebase, CI/CD Pipelines, Git, Jira, Slack, Trello, VS Code, Postman, Service Workers, Tableau, AI-assisted Development (Cursor, GitHub Copilot Pro)

PROFESSIONAL EXPERIENCE

Software Engineer – Maersk GSC (India) Private Limited

August 2023 – Present | Bangalore, India

- Led end-to-end frontend development of internal feedback & survey platform used by **350+ teams**, improving feedback visibility and decision turnaround by **40%**
- Architected modular **React & Next.js** components aligned with Maersk Design System, reducing feature development effort by **30%** across teams
- Built complex UI flows (threaded comments, voting, mentions, timelines, rich-text editing), improving user engagement by **50%**
- Optimized performance using lazy loading, pagination, memoization, and API optimizations, reducing page load time by **35%**
- Implemented backend integrations using **Node.js, Prisma, PostgreSQL**, enabling scalable APIs for surveys, responses, and notifications
- Increased unit test coverage to **90%+** using **Jest** and React Testing Library, reducing production defects by **40%**; mentored junior engineers and drove code quality through PR reviews

Consultant – Deloitte USI

January 2021 – July 2023 | Hyderabad, India

- Delivered enterprise-scale frontend applications using **React, Vue.js, TypeScript**, supporting multiple client engagements with **95%+** satisfaction
- Refactored legacy UI codebases and standardized frontend patterns, reducing technical debt by **30%** and improving maintainability
- Built and enhanced complex user-facing workflows, improving UX consistency and responsiveness across applications
- Delivered high-quality releases on schedule through cross-functional collaboration with product, design, and backend teams in **Agile** environments
- Led production bug fixes, root cause analysis, and performance improvements, reducing post-release issues by **45%**; supported multiple deployments with **zero downtime**

Software Engineer – Zensar Technologies Limited

July 2018 – December 2020 | Pune, India

- Built reusable UI component library using **Angular** and **React**, improving development speed and UI consistency across multiple client projects
- Integrated **REST APIs** and collaborated with backend teams to deliver POCs and production features on tight deadlines
- Contributed to performance optimizations and cross-browser compatibility fixes across client applications

EDUCATION

Lakshmi Narain College of Technology, Bhopal | B.E. Computer Science | January 2018 | CGPA 8.51/10

AWARDS & RECOGNITION

Applause Award, Deloitte USI — Dec 2022

Spot Award, Deloitte USI — Oct 2021

Rising Star Award, Zensar Technologies — Aug 2019

KEY PROJECTS

InsightsHub (Maersk)

- 350+ teams; React, Next.js, Node.js, Prisma;** voting, discussions, data viz; **99%** uptime

Digital Africa (FAO, UN)

- Service Workers**, application-shell, offline; performance optimizations; **99%** satisfaction

Toyota Material Handling – AEM & E-commerce

- AEM**, Adobe Analytics, responsive marketing; e-commerce with **REST API**, Clean Code Architecture
